COPILOT INSIDE EXCEL

The best analyst works inside the workbook.

Tables + formulas + filters + charts + workbook context

The New Analytics Posture

Delegate. Verify. Decide.

1) ASSIGN THE QUESTION

2) VERIFY THE ANALYSIS

check formulas ✓

ask what changed? ?

3) MAKE THE DECISION

APPROVED

RISK: MODERATE

EXECUTIVE MEMO

document the decision

Copilot is not magic; it is managed expertise.

The Banker's Spreadsheet Problem

The bottleneck is not data — it is judgment.

Data Readiness Is the First Control

Garbage in → governance risk out

Clean tables. Clear headers. Trusted decisions.

messy data

prepare
before you
prompt

Structured Table

Date	Branch	Deposits	Loans	Fees	Expenses	Risk Flag
6/10/23	Bank	20,000	10,000	\$200	\$250	
6/14/23	Bank	9,000	3,000	\$00	\$200	
6/18/23	Bank	20,000	5,000	\$20	\$200	
6/19/25	Bank	5,000	550	0	\$50	

DECISIONS

1. Use tables 
2. Name columns clearly 
3. Verify formulas

! Copilot is powerful, not magic.

Prompting Is Management.

Demo 1: Build a Financial Model

A model is a decision engine, not a spreadsheet.

Financial Modeling Is a Conversation.

BankUnited Master Class: AI-Assisted Data Analytics in Excel.

Verification Checklist:

- ✓ check formulas (blue)
- ✓ trace assumptions (blue)
- ✓ compare scenarios (green)
- ✗ explain the recommendation

A model is only valuable if if leaders can challenge it.

Demo 2: Run a Monte Carlo Analysis.

Risk is not one number — it is a range of futures.

● ?

forecast

simulate
uncertainty

5.2%	12.8k	-3%		150.5	150.5
5.2%	=RAND()				75.7k
-3%				=SUM()	
7.2%					150.5
-3%				=NORM.INV()	150.5
4.2%					150.51
-3%	=RAND()			=SUM()	=SUM()
5.2%		12.8%	150.5		150.5

1,000 possible futures

Mini prompt:

Analyze Monte_Carlo_Trials. Estimate positive NPV, downside tail, and key assumptions.

MONTE CARLO MAKES RISK VISIBLE.

BANKING USE CASES THAT MATTER.

Use cases are not tools —
they are recurring decisions.

THE HUMAN VERIFICATION LAYER.

In banking, Copilot output is a draft until a qualified human verifies formulas, source data, assumptions, governance, and compliance fit.

FROM SPREADSHEET TO DECISION SYSTEM.

A decision system turns insight into rhythm.

Make It an Agent

“An agent makes excellence repeatable.”

Your 30-Day Challenge

“Do not automate confusion. Build intelligence.”

30-DAY CALENDAR
