

THE ESSENCE OF AI WITH MICROSOFT ENTERPRISE COPILOT

- ✓ CONTEXT
- ✓ TOOLS
- ✓ SYNTHETIC EMPLOYEES

A BANKUNITED MASTERCLASS IN CONTEXT,
TOOLS, AND SYNTHETIC EMPLOYEES.

PRESENTED BY DR. ERNESTO LEE AND DR. PEDRO SANTOS

<https://m365.cloud.microsoft>

INTELLIGENT
AUTONOMOUS
SECURE
SCALABLE

YOUR WORK NOW HAS AN INTELLIGENT OPERATING SYSTEM.

Change Your Relationship with AI.

- ✓ LIMITED CONTEXT
- ✓ TYPING ONLY
- ✓ GENERIC ANSWERS
- ✓ REACTIVE HELP

STOP TREATING AI LIKE AN ASSISTANT.

TREAT IT LIKE THE MOST
COMPETENT CONSULTANT
YOU CAN ACCESS.

TRY VOICE:
WISPR FLOW
OR SUPERWHISPER.

- ✓ RICH CONTEXT
- ✓ VOICE + MULTIMODAL
- ✓ STRATEGIC INSIGHTS
- ✓ PROACTIVE GUIDANCE

THE INTERFACE CHANGES THE INTELLIGENCE YOU RECEIVE.

THE LLM IS THE BRAIN.

YOUR BUSINESS
NEEDS CONTEXT
TO UNDERSTAND.

LLM = Brain = Raw IQ

Powerful, but not yet informed by your world.

TRY THIS:
COMPARE MODELS:
arena.ai
•
LMarena

INTELLIGENCE IS NOT THE SAME AS UNDERSTANDING.

≡ Tokens Are the Units of Thought. ≡

AI does not read words.
It reads tokens.

≡ Tokens shape memory, cost, speed, and context. ≡

TRY THIS:

OpenAI Tokenizer –
platform.openai.com/tokenizer

≡ Tokens are the currency of cognition. ≡

FLASHLIGHT THEORY EXPLAINS CONTEXT

"A huge IQ in a dark room still cannot see."

⇒ The flashlight beam is context. ⇐

WITHOUT CONTEXT,
INTELLIGENCE
HAS NO
DIRECTION.

CONTEXT

DESK

SPREADSHEET

EMAIL

MEETING
TRANSCRIPT

POLICY
BINDER

- ✓ THINK
- ✓ FOCUS
- ✓ SEE WHAT MATTERS

IQ + Context = Useful Work.

→ Context turns intelligence into relevance. ←

CONTEXT WINDOW AND CONTEXT ROT

Context has limits, and it can decay.

The window is finite; stale context creates stale answers.

✓ FRESH CONTEXT

TOKEN
BUDGET

⚠ CONTEXT ROT

THE RIGHT WINDOW BEATS THE BIGGEST BRAIN.

CONTEXT WINDOW • CONTEXT ROT • TOKEN BUDGET

PERSONA IS THE SYSTEM PROMPT

Give Copilot a role before you give it a task.

In Copilot: Settings → Personalization.

From the perspective of an expert...

Persona focuses intelligence before work begins.

Meta-Prompting Is How You 10X Yourself.

Ask AI to
help you ask
better questions.

FIRST PROMPT
How can I grow
my business?
?

10X

BETTER PROMPT
What strategies can
I use to grow my
business?
?

10X

EXPERT PROMPT
Act as an expert
and interrogate
my goal.

It reveals
blind spots,
assumptions, and
missing context.

PROMPT PATTERN: "Act as an expert and interrogate my goal."

BRANCH
Stronger local
connections.

**CUSTOMER
CONVERSATION**
Deeper insights,
better advice.

RISK
Smarter risk
decisions.

TREASURY
Optimize cash
and liquidity.

COMPLIANCE
Reduce risk.
Stay audit-ready.

Better prompts create better thinking.

≡ COPILOT ALREADY HAS BUSINESS TOOLS. ≡

COPILOT CONNECTS IQ TO YOUR WORK.

Email • Excel • PowerPoint • meetings • transcripts.

 PERMISSIONS ARE
INHERITED;
AI DOES NOT
CREATE NEW ACCESS.

AGENTS ARE SYNTHETIC EMPLOYEES.

We are moving from prompts to systems.

An agent combines instructions, files, sources, and actions.

EXERCISE: Build a role-specific BankUnited agent for one recurring task.

AN AGENT IS A WORKFLOW WITH JUDGMENT.

Only specified sources
when accuracy matters.
